Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

The attorney of record discussed the applicants' teaching of "allowing a user to change conditional attributes to display attributes" and stated that the cited prior art did not teach this element of claim 1. The examiner explained that the secondary reference, Kondo et al, taught "display element generation means for converting the classification result provided by the attribute classification means into display elements", in column 2, lines 34-48. The attorney will further review the application in view of the cited references in the Final Rejection, and will possibly propose an amendment to the claims, after consulting with the applicants.
